

**SUSTAINABLE
GROWTH**
COALITION

WHO WE ARE

The Sustainable Growth Coalition is a business leadership group of over 20 organizations advancing a circular economy through collaboration. Individually, each organization is committed to sustainability, and recognize that together they can have a larger, societal-level systemic impact on their operations, industries, environment and community.

CURRENT MEMBERS

What's Our VISION FOR SYSTEMS CHANGE?

The Sustainable Growth Coalition is moving our region toward a thriving circular economy – where all energy is renewable, waste is eliminated, and natural resources are protected and preserved. As the next frontier of corporate sustainability, circular economy principles uncover business growth opportunities, drive innovation, and promote thriving communities and regions.

2022 ACCOMPLISHMENTS

- Hosted learning labs on sustainability, circularity, and equity topics for members to learn from each other and outside experts on sustainability, circularity, and equity topics.
- Connected environmental justice and circularity with members sharing best practices and outside speakers offering additional expertise.
- Provided resources on circularity basics, circularity, and waste, and environmental justice and circularity.
- Engaged members in framing Coalition value, dues, and 2023 goals.

2023 GOALS

- Interact with state leadership through MN Climate Action Framework and CERES.
- Increase networking and collaboration through facilitated in-person gatherings, digital communications, and a member directory.
- Incorporate environmental justice throughout the Coalition's work.

IN THE COALITION, TOGETHER WE:

Build brand value and sustainability thought leadership on a regional and global scale

Leverage relationships in civic and business leadership groups, and gain access to decisionmakers to raise awareness of gaps and barriers preventing circularity and prosperity

Connect, share learnings and collaborate across sectors and industries

Provide resources to increase member capacity around circularity and environmental justice.

Elevate the business value for systems change, equity, and economic growth impacting people, communities and businesses
