SUSTAINABLE GROWTH COALITION

# Make progress together.

A cross-sector community helping organizations share expertise and advance a more circular, sustainable economy.

## Why join SGC?

SGC brings organizations together to exchange practical knowledge, build cross-sector relationships, and collaborate on sustainability challenges that can be difficult to solve alone. Members can learn from peers, use shared resources, and help shape collective priorities.

### CONNECT ACROSS SECTORS

Build relationships with organizations across business, government, nonprofit, and community sectors.

### LEARN FROM SHARED WORK

Explore practical resources and guides built from the collective insight and experience of SGC members.

### SHAPE COLLECTIVE ACTION

Share your organization's expertise, provide input on priorities, and help identify collaborative opportunities.

## 2026 at a glance

- Developed and distributed a survey on how Minnesota companies collect and use emissions data.
- Held 3 Regenerate sessions and 2 all-member meetings.
- Welcomed 2 new members: Sunrise Banks and Ramsey/Washington Recycling & Energy.
- Added 3 new Steering Committee members.
- Hosted Lunch & Learns on biochar, net-zero financing, EPR, and e-waste recycling.
- Engaged student groups from the University of Minnesota's Carlson School and Humphrey School on SGC projects.

## Membership

### Who can join?

Organizations with a significant Minnesota presence and a demonstrated commitment to sustainability and the circular economy. SGC aims for a cross-sector mix, including private, public, nonprofit, and community organizations.

### What does membership involve?

Participate in full-member meetings, share feedback and expertise, support collaborative action, and contribute annual membership dues. Workgroup participation is voluntary. Annual membership starts at $6500. Contact us to discuss custom pricing.
